Summary:

This document explains the functional process to log in to the Sales Mobile Application using **Employee ID + Mobile Number with OTP authentication**, create a **New Customer** with all required details, and then create a **New Booking** by selecting the customer using **Customer ID (CUST ID) or Mobile Number**.

Prerequisites

- User must be a valid showroom employee with an active Employee ID mapped in the system.
- Registered Mobile Number must be linked to the same Employee ID to receive OTP.
- Mobile device must have network connectivity to receive OTP/SMS.

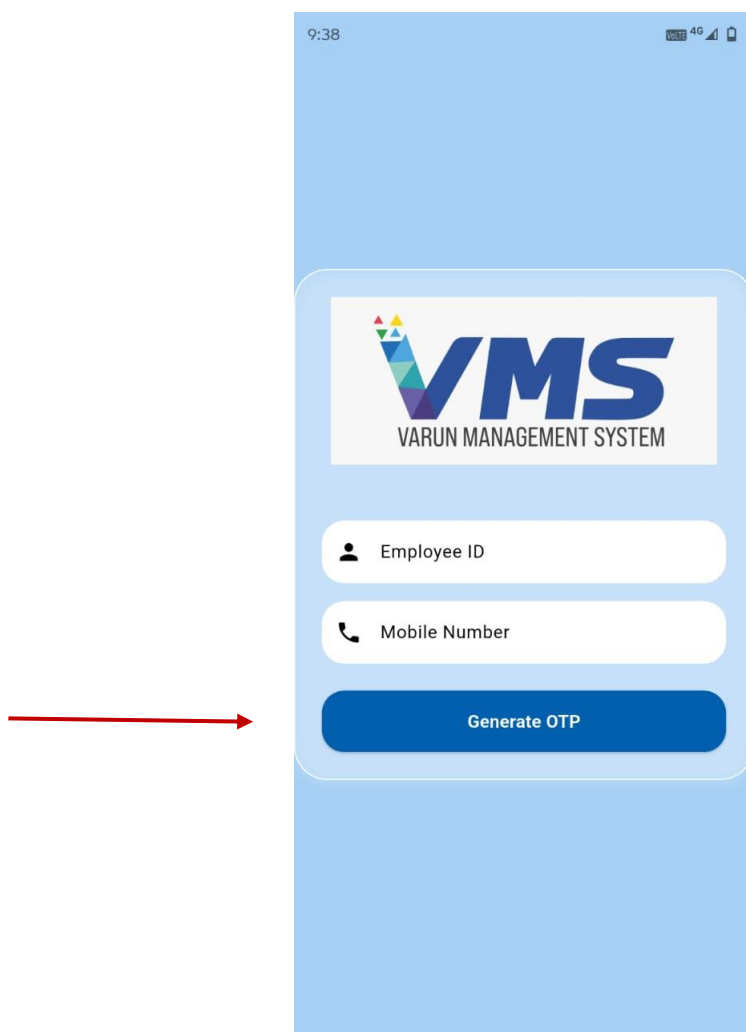

Functional Steps:

Step 1: Open the App

1. Launch the Sales Mobile App from your mobile device.
2. The login screen will be displayed.

Step 2: Enter Credentials

1. Enter **Employee ID**.
2. Enter **Mobile Number**.
3. Tap **Generate OTP**.

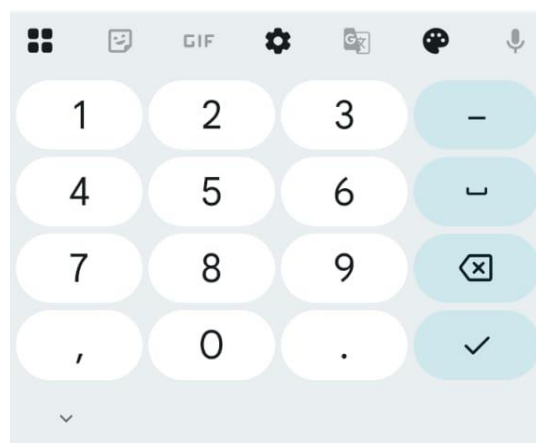

Step 3: Verify OTP

1. On the “Verify OTP” screen, enter the OTP received on your mobile.
2. Tap **Verify OTP** to complete authentication.

Enter OTP here

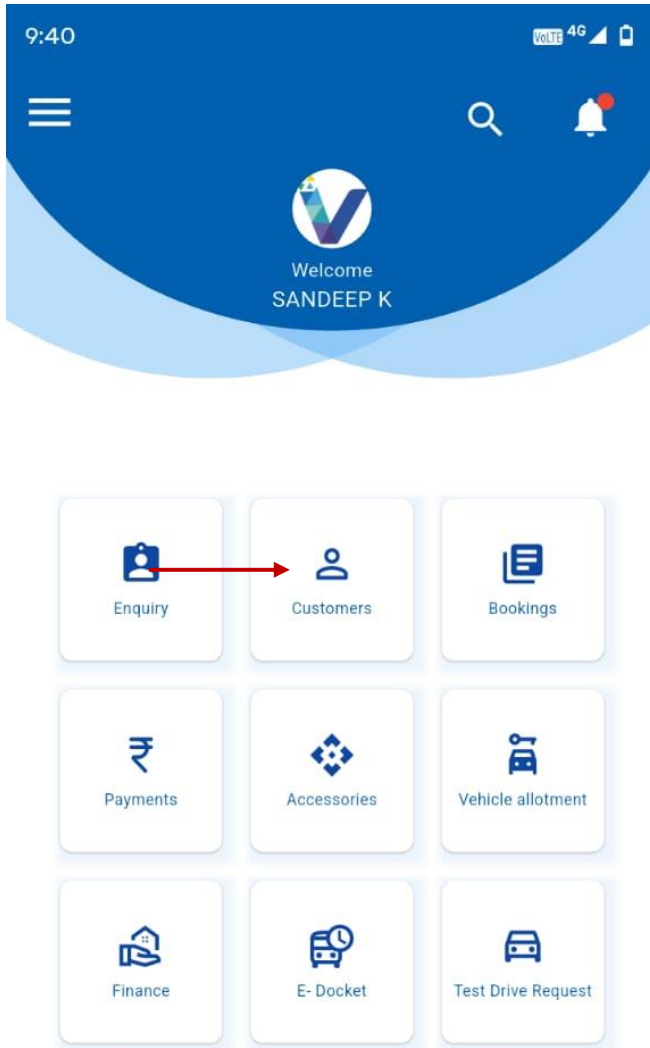

Sent to +91 XXX XXX 9795

Step 4 (If enabled): Verify MPIN

1. If the app prompts “Verify MPIN”, enter your MPIN.
2. Tap **Verify MPIN** to proceed.

After successful login, the system navigates to the **Home/Dashboard** screen

Home Screen Navigation (Key Modules)

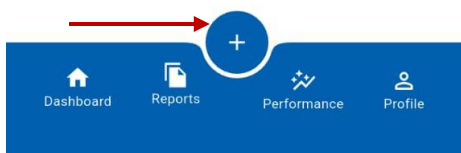

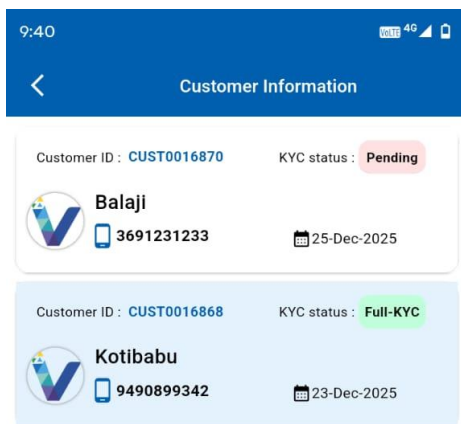

From the Dashboard, users can access tiles such as:

- **Customers**
- **Bookings**
- Payments
- Accessories
- Finance
- Test drive
- Reports / Performance (if available)
- Profile

Create New Customer (Customer Master Creation)

Step 1: Go to Customers

1. From the Dashboard, tap **Customers**.
2. The Customer list screen appears with existing customers and KYC status.

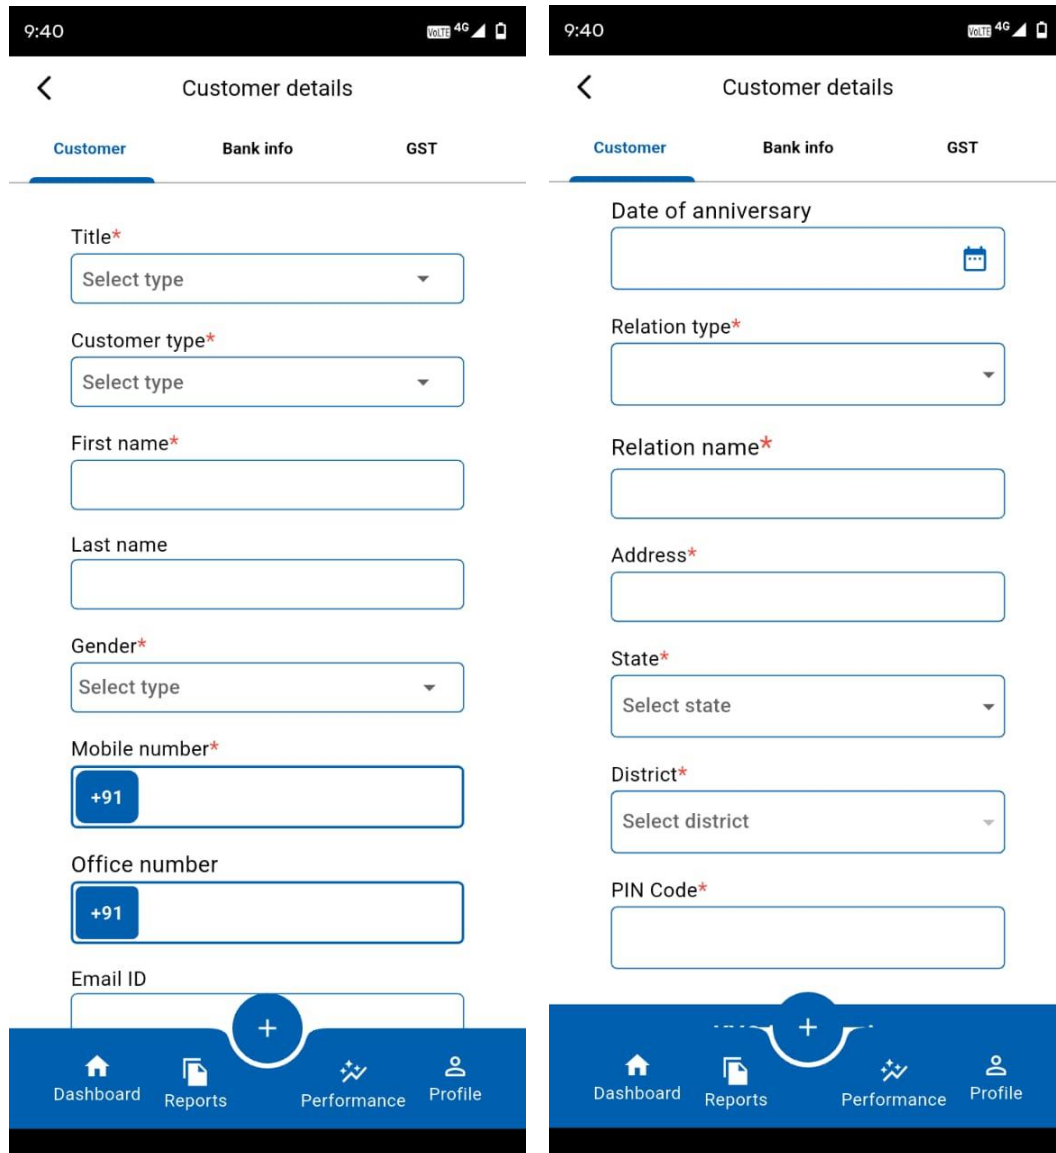

Step 3: Fill Customer Tab (Basic Details)

Enter mandatory fields (as applicable in your form):

- Title, Customer Type
- First Name, Last Name
- Gender
- Mobile Number (mandatory)
- Email ID (optional)

- Address, State, District, PIN Code
- Relation Type & Relation Name (if required)
- Date of Anniversary (optional)

Step 8: GST Tab (If applicable)

Enter:

- GST Registration Number
 - Registration Type
 - Legal Name & Trade Name
 - Date of Registration
 - Entity Type
 - Status
 - Address, State, PIN Code
- Save the details.

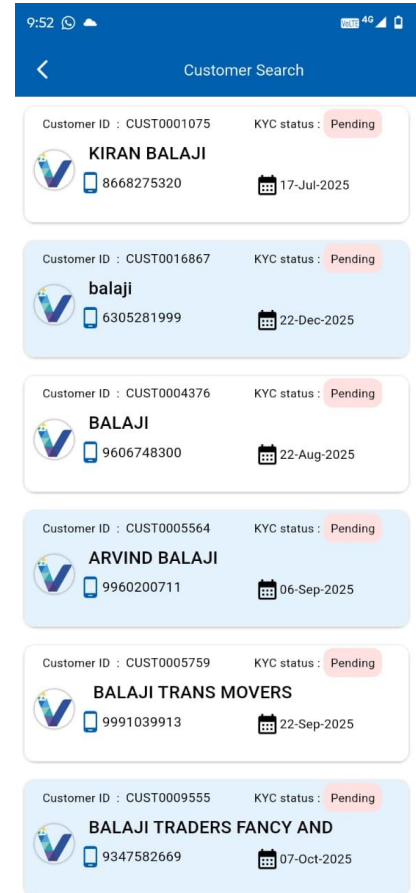

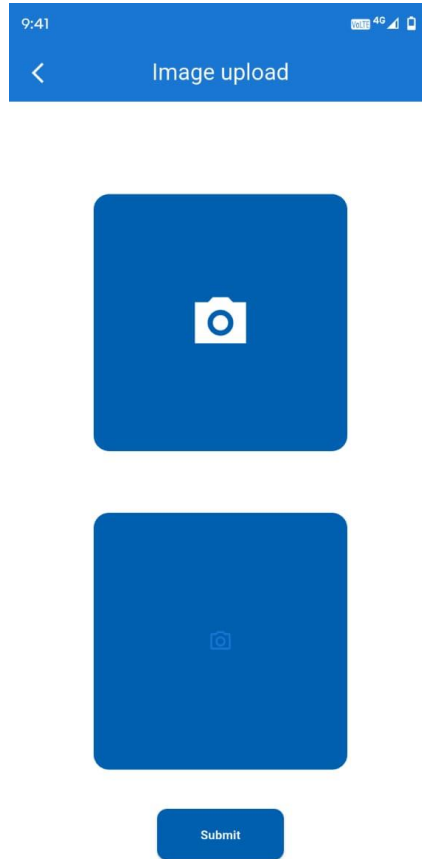

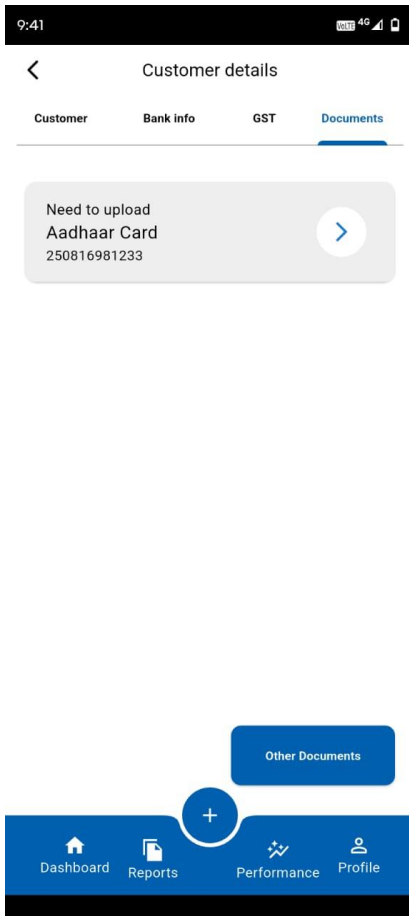

A screenshot of a mobile application interface for GST Registration. The form is titled "GST Registration" in a blue header. It contains several input fields: "Registration number", "Registration type", "Legal name", "Trade name", "Date of registration" (with a calendar icon), "Entity type" (a dropdown menu with "Select Type" as the placeholder), "Status", "Address", "State", and "PIN Code". The form is displayed on a smartphone screen with a status bar at the top showing the time as 9:41 and 4G connectivity.

Step 9: Documents Tab

1. Go to **Documents** tab.
2. Upload mandatory documents (example: Aadhaar) and any other supporting docs using **Other Documents**.
3. Confirm upload status.

Step 10: Save Customer

1. Tap **Save / Next** (as per app flow).
2. The system creates a new customer and generates a **unique Customer ID (CUSTxxxxxx)**.
3. Customer will appear in the Customer list with KYC status (Pending / Full-KYC etc.).

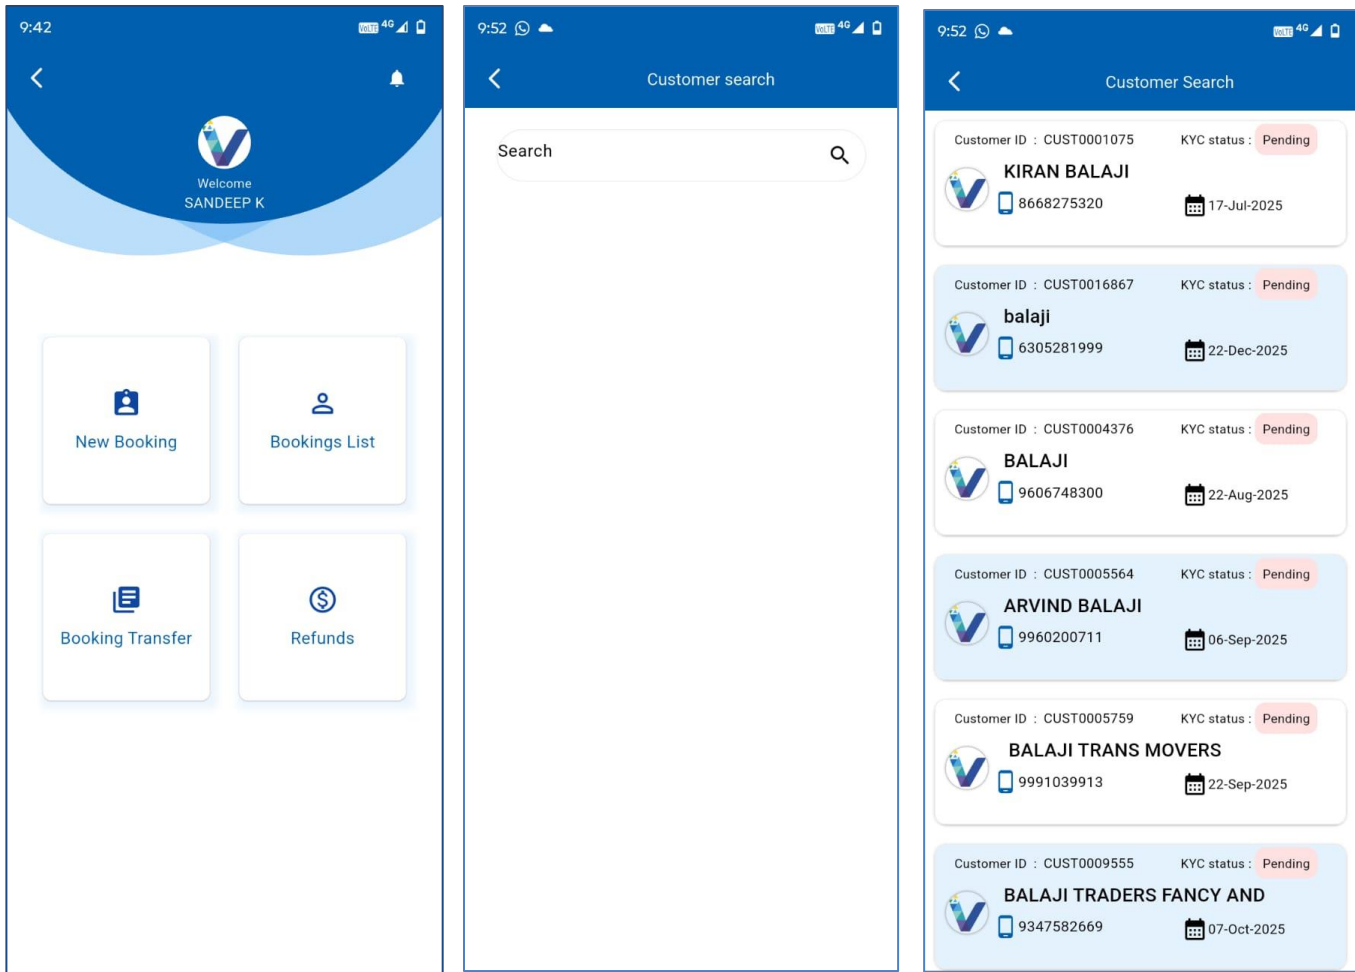

Create New Booking (Using CUST ID / Mobile Number)

Step 1: Go to Bookings in the main menu

1. From Dashboard, open **Bookings**.
2. Tap **New Booking**.

Step 2: Select Customer

You can select customer in either method:

Step 3: Enter Booking Details

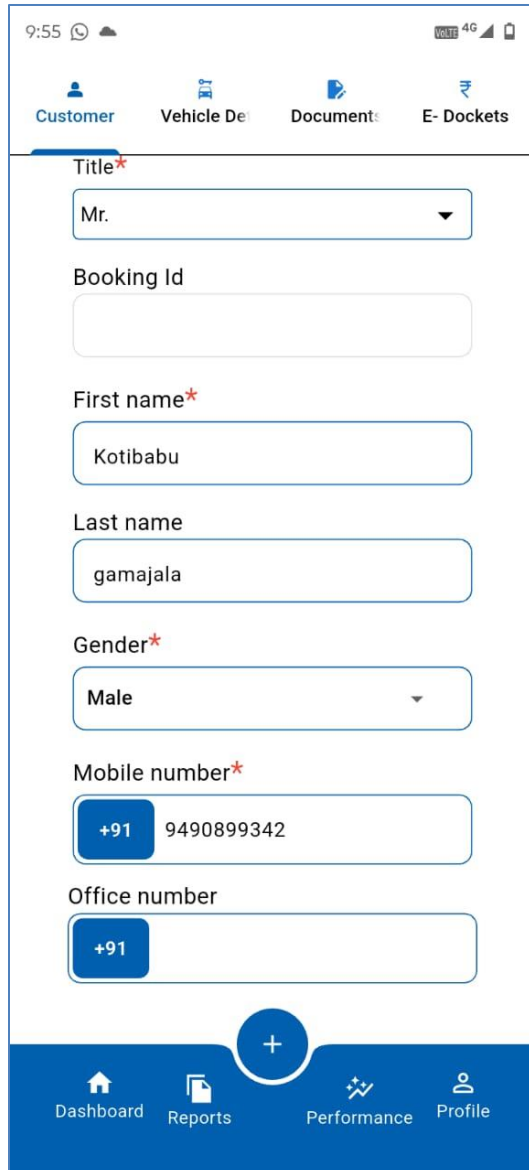

Fill booking header details based on your app screens (typical fields):

- Booking date / scheme / source type (if present)
- Corporate scheme (Yes/No)
- Finance selection (if required)
- Insurance selection (if required)

Step 4: Vehicle Details for Booking

Enter/select vehicle-related fields for the booking:

- Model, Variant, Color
- Fuel type, Transmission type
- Any scheme fields required for booking (true exchange/corporate scheme etc.)

Step 5: Attach Required Documents

1. Open **Documents** section inside booking.
2. Upload required documents (ID proof, booking forms, etc.).
3. Ensure documents are marked as uploaded/verified as per status.

Step 6: Payments request raise

1. Tap E-Docket/ **Payments tab**

2. Select the payment type as shown in the dropdown (Booking Advance/Token Amount/Accessories/Others...)
3. Enter the payment value and send it for payment collection, as the cashier/Account team collects & confirms in web interface, payment status will be updated automatically.

The screenshot displays the VMS Edge mobile application interface. At the top, there's a status bar with the time 9:57 and various icons. Below it, a navigation bar contains icons for Document, E-Dockets, Accessories, and Disc. The main content area has two tabs: 'Billing Info' and 'Payment Info', with 'Payment Info' being the active tab. A 'Payments Info' section is visible with an upward arrow. A modal form titled 'Payment' is overlaid on the screen. This form contains three fields: 'Payment type' with a dropdown arrow, 'Amount' with a text input field and a note 'Minimum amount Of ₹ 5000', and 'Payment mode' with a dropdown arrow. A blue 'Send' button is at the bottom of the modal. Below the modal, there are sections for 'Exchange Info' and 'Finance Info', both with downward arrows. At the very bottom, a dark blue navigation bar contains icons and labels for 'Dashboard', 'Reports', 'Performance', and 'Profile'.

Step 6: Submit Booking

1. Tap **Submit / Save Booking**.
2. System generates a **unique Booking ID** and stores the booking under **Bookings List**.
3. Booking will be searchable and trackable by Booking ID / Customer ID.

The screenshot displays the 'Submit Booking' screen in the VMS Edge mobile application. The interface includes a top navigation bar with icons for Customer, Vehicle De, Document, and E- Dockets. Below this, there are several dropdown menus for selection: 'Corporate scheme*' (set to 'Yes'), 'True exchange scheme*' (set to 'Yes'), 'Registration type*' (set to 'Private'), and 'Source type*' (set to 'Select Source'). A central modal window with a green checkmark icon and the text 'Booking created successfully' is overlaid on the form. Below the modal is a green 'Ok' button. At the bottom of the screen, there is a 'Submit' button and a bottom navigation bar with icons for Dashboard, Reports, Performance, and Profile.
